

Jesús Hernández

Flutter/Dart Frontend developer

Software developer dedicated to producing high-quality, readable, well-documented, and functional code. Always looking for the next project or challenge that will help improve my training and performance.

Software development enthusiast, with experience in Flutter since it was in Beta version.

Mexico

Version control:

- GIT
- GitHub
- Bitbucket

State management:

- Bloc / Cubit
- Riverpod
- Get

Local Databases:

- Isar
- ObjectBox
- SQLite

Third party integrations:

- Firebase
- Supabase
- Custom APIs

PROFESSIONAL EXPERIENCE

01/2025 – now
Mexico

Medium Coders

Front-End Developer

Achievements / Tasks:

- Interpretation and adaptation of **UI/UX** designs in **Figma** for implementation in mobile applications.
- **Requirement's analysis** and translation of **client needs** into functional designs for **iOS** and **Android**.
- Development of **e-commerce**, **services**, and **digital banking** applications, with a focus on **user experience**.
- Implementation of **Clean** and **MVVM** architectures, using **GetX**, **Bloc/Cubit**, and **Provider** for state management.
- Use of **GitHub** and **Bitbucket**, including **CI/CD** for testing and deployment automation.
- Consumption of **REST** and **GraphQL** APIs, both internal and external.
- Integration of payment gateways such as **Stripe**.

10/2022 – 02/2025
Cuba,
Mexico

Zyrcled Social Group,

Front-End Developer

Achievements / Tasks:

- Development of **Android** and **iOS** applications using **Dart** and **Flutter**.
- Integration with **Firebase** services: Firestore, FCM, Authentication, Storage, Maps, and Crashlytics.
- Implementation of **Supabase** for user management and **PostgreSQL** databases with **real-time** synchronization.
- Use of modular architectures with **Melo**, improving project organization and **scalability**.
- Consumption of **third-party APIs** and integration with Cloud Functions and internal backend.
- Application of **real-time** update techniques using **Streams**.
- Development of dating apps with **high traffic** and a **social focus**.
- Contribution to multiple community packages such as: **feedback**, **flutter_zoom_drawer**, **circular_countdown_timer**, and **custom_dropdown**.
